LETTER OF TRANSMITTAL

The Honorable Wallace G. Wilkinson
Governor of Kentucky
Frankfort, Kentucky

Sir:

I have the honor to submit for your approval the report of the Department of Mines and Minerals for the year ending December 31, 1987, this being the one hundred and eighth report of this Department.

Very respectfully yours,
Willard Stanley, Commissioner
Department of Mines and Minerals

Lexington, Kentucky

This copy has been prepared by the Department of Mines and Minerals and paid for from state funds.

INTRODUCTION

Kentucky coal production was 177,259,423 tons in 1987. The 1987 production of 177,259,423 tons was 11,656,084 tons more than the previous year of 165,603,339 tons. Kentucky remained the nation's largest coal producing state by out-distancing the nearest rival by 30,770,775 tons. In 1987 over seventy-four million tons of coal were mined by surface operations while over one hundred three million tons were mined underground.

The coal industry furnished direct employment for 41,638 miners.

Twenty-seven miners were killed in Kentucky coal mine accidents in 1987.

The clay mining industry mined 435,422 tons in 1987. No fatal accidents occurred at clay mines during the year.

The following chart compares production of the various types of coal mines for the past two years:

DIRECTORY AND STATISTICS OF DEPARTMENT OF MINES AND MINERALS INSPECTION DISTRICTS

To facilitate the mine inspection duties of the Department, the coal fields have been divided into six inspection districts. A mine rescue station which serves as the district office is centrally located in each district. The Eastern Kentucky coal field is divided into five districts, with mine rescue stations located at Harlan, Hazard, London, Martin and Pikeville. An office at Madisonville serves the Western Kentucky coal field.

The operations for the district offices are directed from the office of the Commissioner located in Lexington. General staff and Lexington office personnel are as follows:

Willard Stanley, Commissioner
Margaret Caywood, Principal Assistant
Curtis Miller, Chief Examiner
Nancy Toombs, Executive Secretary
Eugene D. Attkisson, Attorney Chief
Sallie Hubbard, Legal Secretary
Randy Donahue, Director of Administrative Services
Betty Bostick, Accountant
Connie Wolfe, Sr. Accountant
Joey Lucas, Administrative Specialist
Susan Burke, Fiscal Officer
Karen Shillito, Accountant
Eula Witt, Office Supervisor
Julane Mullins, Chief Clerk¹
Georgia Staab, Chief Secretary
Karen Pierce, Principal Clerk²
Jean Cox, Principal Clerk³
Delbert Robison, Printing Equipment Operator
Johnny Howard, Messenger (part-time)
Geoffrey Belcher, Clerk (part-time)

The Directory and Statistics of Coal Mines contained in the following pages is separated by Inspection Districts and by Counties.

Code letters to classify mines are as follows:

URC	Underground Rail Coal
URWC	Underground Rail Water Coal
UTC	Underground Truck Coal
UWC	Underground Water Coal
ARC	Auger Rail Coal
ASRC	Auger Strip Rail Coal
ASTC	Auger Strip Truck Coal
ASWC	Auger Strip Water Coal
ATC	Auger Truck Coal
AWC	Auger Water Coal
SRC	Strip Rail Coal
STC	Strip Truck Coal
SWC	Strip Water Coal
SRCL	Strip Rail Clay
STCL	Strip Truck Clay
GSTC	Gob Strip Truck Coal

Notations made are as follows:

A	Abandoned
CC	Change of Company Name only
CO	Change of Operator and Company Name or Operator Name only
*	Estimated Tonnage

Production, employment and accident figures for River mines have been included in the totals for Truck mines for the purpose of compiling some statistical charts.

Many of the coal production figures of individual mines which appear herein have been estimated by the Department. This was necessary because the reports of the operators of those mines, particularly mines which became abandoned during 1987, were delinquent at the time of publication.

**MINES AND MINERALS HARLAN DISTRICT
PERSONNEL-1987**

HARLAN DISTRICT

The office and mine rescue station of the Harlan District is located in the old Margie Grand Theater Building, corner of Central and Second Streets, Harlan, Kentucky. The Harlan District is comprised of Bell and Harlan Counties.

There were 299 commercial coal mines in the Harlan District during 1987. One thousand one hundred and seventy-one inspections were conducted. Records show that 5 mines were abandoned in the district during the year 1987.

Personnel of the Harlan District:

Dewey Middleton, District Supervisor

James Gilbert, Mine Inspector

David Disney, Mine Inspector

Tom Howard, Mine Inspector¹

Jesse Whitt, Mine Inspector

Roy Rhymer, Mine Inspector

Dale Halcomb, Mine Inspector

Sherrill Fouts, Mine Inspector²

MINE FIRES AND IGNITIONS IN KENTUCKY

JANUARY 27, 1987, GREEN RIVER NO. 9 MINE, GREEN RIVER COAL COMPANY, MADISONVILLE, HOPKINS COUNTY. An apparent ignition of methane occurred at the face of the No. 2 entry when jack rock arced against the cutter bits as the machine operator was cutting the face. There were no personal injuries.

APRIL 17, 1987, MINE NO. 5, ACTION ENERGIES, INC., RACCOON, PIKE COUNTY. A fire occurred at the No. 2 belt drive when grease in the bottom belt roller caught on fire after the shaft in the belt drive drum roller separated from the roller on the drum. The fire was extinguished with water and rock dust. There were no personal injuries.

APRIL 27, 1987, MINE NO. 1, P. & H. COAL COMPANY, INC., STANVILLE, PIKE COUNTY. Heavy smoke was discovered coming from the No. 1 portal. Due to the high level of CO, smoke and the height of the openings, it was decided to seal all entries to the mine. There were no personal injuries.

JULY 28, 1987, MINE NO. 1, SIDNEY COAL COMPANY, INC., SIDNEY, PIKE COUNTY. An ignition of unknown origin occurred at a borehole behind a sealed area on No. 2 panel. Seals were repaired. There were no personal injuries.

SEPTEMBER 11, 1987, MINE NO. 2, FOUR ACES MINING COMPANY, INC., ARJAY, BELL COUNTY. A fire occurred while a repairman was in the process of splicing a cable for the bolting machine. The fire suppression system on the bolting machine was activated and two five pound fire extinguishers used, but the fire consumed the roof bolter. The area was sealed to allow the fire to burn out. Twelve hours later the mine was re-entered, re-ventilated and water put on the remaining hot spots. There were no personal injuries.

NOVEMBER 6, 1987, MINE NO. 1, TIMPER COAL COMPANY, INC., BURNWELL, PIKE COUNTY. A fire occurred when the bit motor lead grounded to the frame of a cutting machine while the right break in the No. 3 heading was being cut. Attempts were made to extinguish the fire, but the smoke became so dense that the mine was temporarily sealed. There were no personal injuries.

TRAINING AND EDUCATION

A full time Training and Education Program was established in 1971, with a Federal Grant from the Mine Enforcement and Safety Administration, now known as the Mine, Safety, and Health Administration (MSHA). This is a very effective program and is staffed with ten (10) well qualified mining instructors and five (5) electrical instructors, who are stationed in the six district offices and mine rescue stations.

The following list shows the type of certificates issued and the number of men/women involved in the different safety courses conducted by this Division in 1987. (This includes both organized classroom work and field work).

MINER TRAINING, EDUCATION AND CERTIFICATION DIVISION

The Board of Miner Training, Education and Certification as provided by Chapter 351, Paragraph 105, Kentucky Revised Statutes, was composed of the following members in 1987.

Willard Stanley	Chairman
Troy Ed Chafin	Mine Member Eastern Kentucky
Raymond Ashby	Operator Member Western Kentucky
James Childers	Operator Member Eastern Kentucky
Lewis Chaney	Mine Member Western Kentucky ¹
Richard H. Litchfield ...	Mine Member Western Kentucky ²
William E. Clayton, Director, Miner Training, Education and Certification Division	Non-Voting Member

Pursuant to KRS 351.106 Underground Miner Training and Certification Regulations were implemented in October 1977. During 1978 the required 48-hour inexperienced miner's program was prepared and the first classes were taught in May 1978. Through December 31, 1987, 41,943 persons were issued Temporary Inexperienced Miner's Work Permits; of this number, 2,977 were issued during 1987.

After the Underground Miner Training and Certification Regulations were implemented in October 1977, the Board of Miner Training, Education and Certification established a date of November 1, 1978, as the date all persons employed in underground mines should meet this requirement. As of December 31, 1987, 34,198 persons have been issued underground miners certificates. Of this total, 391 are female miners. As of December 31, 1987, 21,065 of this number were current.

Uniform two-day examinations for Mine Foremen and Inspectors were scheduled by the Board to meet the demand whenever it arose. Examinations were held in the Department offices in Lexington and at various localities throughout the coal fields, whenever the number of applicants made it justifiable. Mr. Curtis Miller now serves as Chief Examiner throughout the Commonwealth.

Examinations were multiple choice in character. Applicants were given written examinations on the following subjects: Mine Law; First Aid; Ventilation; Apparatus and Electricity; Fires and Explosions; Explosives and Blasting; General Mining and Gases. Each applicant was tested on his/her ability to detect methane with a flame safety lamp, and use of an anemometer in the calculation of the rate of air current flow. The miner was further required to prove his/her knowledge of safe mining practices in an interview with the Examiner, and to indicate safe and practical methods of ventilation on a typical mine map.

A list of those who successfully completed the required examination for foremen and inspectors is shown on the following pages:

**CARL ANKROM, DIRECTOR
MINE SAFETY ANALYSIS DIVISION**

MINE SAFETY ANALYSIS DIVISION

The Mine Safety Analysis Division consists of one Director, one Assistant Director and thirty-five field personnel. The primary responsibility of the safety analyst is to prevent underground mine accidents and fatalities by observing and evaluating the work habits of persons involved in the direct production of coal and to contact, advise, and assist these persons on a one-to-one basis correcting their unsafe or potentially hazardous actions. In 1987 they completed 339,783 personal contacts and observations and conducted 556 dust sample reports.

The program has served the industry well as evidenced by the decrease of underground fatalities since its inception. Although underground mining fatalities were up in 1987 over 1986, long term trends continue to show improvement in underground mine safety. Twenty (20) fatalities were reported underground last year. In comparison, the 10 year average of fatalities occurring underground stands at 20.9 per year.

The future goals of the Mine Safety Analysis program, as are the goals of the Kentucky Department of Mines and Minerals, are to further reduce all mining accidents by promoting and maintaining safety standards in the state's coal mines thus preserving the Kentucky mining industry's most valuable resource, *THE MINER*.

EXPLOSIVES AND BLASTING DIVISION

During 1987, 164 new General Blaster's Licenses were issued, and 3,341 General Licenses were renewed. Also, 16 new Limited Licenses were issued and 264 Limited Licenses were renewed. There were 208 General Examinations given, 21 Limited Examinations given, and 241 Blasters Certification Exams given. To obtain a General or Limited Blaster's License, the applicant must pass the prescribed written examination and must have two years of practical blasting experience. Fourteen 30-Hr. courses were offered at various locations around the state and were attended by 205 people. There were ten 4-Hr. courses taught at various locations and were attended by 29 people.

The Division of Explosives and Blasting continued its program of inspection, enforcement, education, and licensing of blasters in 1987. A total of 180 new blaster's licenses were issued during the calendar year 1987. Of these 180 new licenses, 164 were general blaster's licenses, and 16 were limited blaster's licenses. As of December 31, 1987, there were 3,785 individuals holding current and valid Kentucky blaster's licenses. Of these 3,505 were general licenses, and 280 were limited licenses.

During 1987, well over 900 million pounds of explosives were detonated in Kentucky. This quantity represents 20% of the total explosives used in the entire United States.

The division conducted fourteen blaster's training courses throughout the Commonwealth in 1987. These classes were attended by 205 people, who were primarily applicants for blaster's licenses. The locations and number of attendees in these courses were as follows:

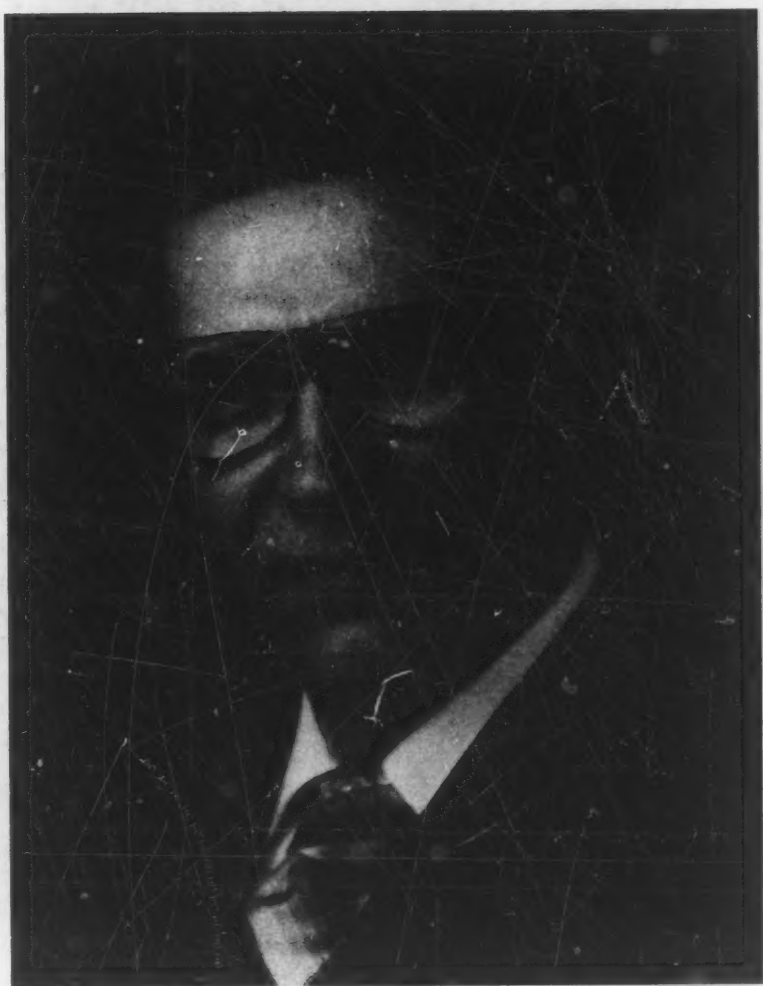

<u>Location No.</u>	<u>No. Attending</u>
Beattyville	7
Blackey	12
Elizabethtown	13
Harlan	14
Hazard	14
Hazard	19
Lexington	14
London	13
London	10
Louisville	19
Madisonville	10
Martin	18
Martin	21
Pikeville	21

These courses consist of thirty hours of instruction covering all aspects of explosives use. The purpose of the course is to raise the competency level of the blasters in the field as well as assist those preparing to take the blaster's examination. The public is better protected and the blaster's work environment is safer when the blaster's ability is enhanced through training.

The Explosives and Blasting inspectors answer 100% of all public complaints received by this division. These complaints primarily concern ground vibrations, noise, flyrock, and various other adverse effects of blasting. The inspector's investigation of the complaints involves inspection of the operation generating the complaint and extensive seismic monitoring. During 1987, the division made 286 such investigations of public complaints and used the seismograph 164 times in order to resolve these complaints.

In addition, the inspectors continue to make routine checks of all blasting operations to ensure compliance with the laws and regulations governing the use of explosives. The division inspects not only those companies using explosives, but also companies engaged in the manufacture, sale, storage, and transportation of explosives. Thirty-seven companies engaged in the sale or distribution of explosives in the Commonwealth registered with the division in 1987.

During the year the division has participated in a number of seminars sponsored by other state agencies and educational institutions. It has been the aim to use every opportunity for education of the public and training of blasters in the safe use and associated hazards of explosives.
